# **Executive Summary**

### **Purpose of this report**

This Five-Year Housing Land Supply ('5YHLS') position statement has been prepared by Lichfields on behalf of Mid-Suffolk District Council ('the Council'). The purpose of this report is to set out the up-to-date 5YHLS position for the Council covering the five-year period from the 1st April 2020 to the 31st March 2025 using the latest available evidence. The report has been prepared in accordance with relevant policy and guidance to demonstrating a 5YHLS.

#### **Consultation on this report**

[To complete following consultation]

#### The five-year requirement

For Mid-Suffolk district, the 5YHLS requirement is 2,809 units between the 1st April 2020 to the 31st March 2025. This is based on the districts Local Housing Need figure (as calculated using the Standard Method) plus a buffer of 5%.

### The Council's deliverable supply

In light of relevant policy and guidance, the Council has undertaken a thorough deliverability review of its supply. This has included gathering 'clear evidence' to demonstrate the deliverability of its 'Category B' sites. The Council has also undertaken a review of local lead-in times and build rates to inform its trajectory and has taken account of market signals following engagement with developers – particularly in response to the effects of the COVID-19 pandemic on housing delivery.

From this exercise, the Council considers it can demonstrate a 'deliverable' supply of 4,450 units across the five-year period. This includes a windfall allowance of 70 dpa in years four and five of the five-year period.

### The Council's five-year housing land supply position

The Council therefore considers it can demonstrate a 7.67-year supply.

Mid-Suffolk District Council's 5YHLS Position between 1st April 2020 to 31st March 2025

Five-Year Requirement	2,809 units
Total Supply	4,309 units
Years Supply	7.67 years
Surplus/Deficit	+1,500

# **Compliance Sheet**

Policy / Guidance	2	Compliance
	g Policy Framework (2019)	
Paragraph 73	Requires LPAs to prepare and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing.	The Council's previous assessment was published in September 2019. This report, its appendices, and supporting material details the Council's annual assessment of its supply of specific deliverable sites.
Paragraph 73 & Footnote 37	The calculation of how much land is required should be either based on the housing requirement set out in adopted strategic policies, or against their Local Housing Need where the strategic policies are more than five years old. In the case of the later, Footnote 37 requires use of Standard Method set out in national guidance to calculate Local Housing Need unless where strategic policies have been reviewed and found not to require updating.	See Paragraphs 2.2 to 2.6. In the case of Mid-Suffolk District Council, in accordance with Paragraph 73 and Footnote 37 of the NPPF (2019) the Council should use the Standard Method to calculate Local Housing Need.
Paragraph 73 & Footnote 39	Requires that the supply of sites should, in addition, include a buffer or either 5%, 10% or 20%. In accordance with Footnote 39 a 20% buffer is only appropriate where the Housing Delivery Test indicates delivery was below 85% of the housing requirement. A 10% buffer is only applicable where the Council wishes to demonstrate its position in an annual position statement or recently adopted plan.	See Paragraphs 2.9 to 2.12. In the case of Mid-Suffolk District Council, in accordance with Paragraph 73 and Footnote 39, a 5% buffer is appropriate as determined by the Housing Delivery Test.
Annex 2 – 'Deliverable'	Annex 2 sets out the definition of a 'deliverable' site.	See Section 3.0 of this report. The Council has fully considered the meaning of 'deliverable' taking account of relevant guidance and appeal precedents.
Planning Practice	e Guidance	
ID:2a-004	How is a minimum annual local housing need figure calculated using the standard method?	As explained at Appendix 1 to this document, the Council has calculated its Local Housing Need figure using the Standard Method detailed at 2a-004.
ID: 68-007	What constitutes a 'deliverable' housing site in the context of plan-making and decision-taking?	See Section 3.0 of this report. The Council has fully considered the type of evidence that can form 'clear evidence' detailed in 68-007 in preparing its proforma for 'Category B' sites.

# **Introduction**

#### Purpose

- <sup>1.1</sup> This Five-Year Housing Land Supply ('5YHLS') position statement has been prepared on behalf of Mid-Suffolk District Council ('the Council').
- 1.2 The purpose of the report is to set out an up-to-date 5YHLS position for the Council covering the five-year period from the 1<sup>st</sup> April 2020 to the 31<sup>st</sup> March 2025. The report has been prepared in accordance with relevant policy and guidance on demonstrating a 5YHLS. All data presented is the most up-to-date available at the time of publication. It should be noted that this 5YHLS position statement, while only setting out the supply position for Mid-Suffolk district, has been prepared jointly with Babergh District Council.

### What is a five-year housing land supply and how is it assessed?

1.3 A 5YHLS is a forward-looking measure of whether a Local Planning Authority ('LPA') has sufficient sites to meet its housing requirement in the next five-years. All LPAs in England are required by the National Planning Policy Framework ('NPPF') (2019) (Paragraph 73) to assess their 5YHLS position on an annual basis taking account of relevant national policy in the NPPF (2019), planning policy guidance ('PPG'), and this can be interpreted in the context of planning precedent (for example planning appeal decisions and legal judgments).

#### 1.4 There are two parts to the calculation of a 5YHLS:

- 1 Housing Need: What is the relevant housing requirement for the five-year period; and
- 2 **Housing Supply:** What is the Council's supply of housing from 'deliverable' sites in the five-year period.
- 1.5 The number of homes expected to be delivered (part 2) is then compared against the number of homes required (part 1) to arrive at a land supply figure: expressed in a number of years'-worth of supply.

# Why is the Council's five-year housing land supply position important?

Whether or not an LPA can demonstrate a 5YHLS informs how both planning applications and planning appeals for housing are determined. Where a Council is unable to demonstrate a 5YHLS then Paragraph 11(d) of the NPPF (2019) is engaged. This means that local policies most important for determining the application are considered 'out-of-date' and the NPPF (2019) requires that planning decisions for housing should be granted unless:

- The application is in a protected area as defined in the NPPF (2019): for example, land within the Green Belt, in the AONB, or within a National Park; or
- Any adverse impacts would significantly and demonstrably outweigh the benefits of the proposed scheme. Such impacts could include the impact to a protected landscape or ecological feature.
- 1.7 Paragraph 11(d) of the NPPF is often known as the 'tilted balance'. The purpose of this national policy is to bring forward additional land for housing that in normal circumstances (i.e. where policies are considered up-to-date) might otherwise not have been granted.

## Has the Council been able to demonstrate a 5YHLS previously?

1.8

1.9

Yes. The Council's previous 5YHLS position – published in September 2019 – covered the fiveyear period from the 1<sup>st</sup> April 2019 to the 31<sup>st</sup> March 2024. This concluded that the Council could demonstrate a 5.66-year supply.

### Does COVID-19 have an impact on the Council's 5YHLS?

The COVID-19 global pandemic has inevitably had an impact on developers' ability to build homes. This is as a result of both the immediate lockdown – where many developers stopped building works on site for a number of weeks – as well as social distancing measures imposed following lockdown: lengthening the time it takes developers to build homes. There is a further issue of general economic uncertainty and the current recession. This report therefore considers these impacts on the delivery of local sites.

## **Consultation of this document**

[To be completed following the consultation]

#### **Structure**

The report is structured as follows with relevant policy discussed in each section of the report:

- Section 2.0 sets out the calculation of the Council's five-year housing requirement;
- **Section 3.0** provides an overview of what a 'deliverable' site is and how the Council has gone about assessing the deliverability of its sites;
- Section 4.0 summarises the Council's housing supply of specific deliverable sites;
- Section 5.0 details the Council's assessment of its 'windfall' allowance; and
- Section 6.0 finally sets out the Council's concluded 5YHLS position.

2.1

2.2

2.6

2.7

# The Council's Five-Year Housing Requirement

This section of the report details the calculation of the Council's 5YHLS requirement against relevant national policy and guidance. There are three parts to this calculation, as detailed in national policy, which are set out below:

- 1 What is the 'basic' five-year requirement?
- 2 Is there a backlog of supply?
- 3 What is the appropriate buffer?

#### What is the 'basic' five-year requirement?

On the appropriate housing requirement for calculating 5YHLS, Paragraph 73 of the NPPF (2019) states the following:

"Local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing **against their housing requirement set out in adopted strategic policies (36), or against their local housing need where the strategic policies are more than five years old.**" (Lichfields emphasis)

- 2.3 The Mid-Suffolk Core Strategy which contains the Council's strategic policies was adopted in 2012 and is therefore more than five years old. While the Council is currently preparing a joint Local Plan with Babergh District Council, this is yet to undergo examination and be formally adopted. Furthermore, no review of the Core Strategy has been undertaken since 2014 that has found the housing requirement not to need updating. Therefore, in accordance with Paragraph 73 and Footnote 37 of the NPPF (2019) the Council must assess whether it has a 5YHLS against its 'Local Housing Need'.
- <sup>2.4</sup> To determine the Council's Local Housing Need figure, Footnote 37 of the NPPF (2019) states that this should be calculated using the 'Standard Method' set out in the PPG
- 2.5 The Standard Method is a national formula that takes account of both projected housing growth and historic housing under-supply (through an adjustment to the household projections based on housing affordability) within a given area. The formula is detailed as part of the PPG (ID: 2a-004) and the calculation for Mid-Suffolk district is detailed at Appendix 2.
  - This shows that the Standard Method figure for Mid-Suffolk district with a 2020 base date is 416 dwellings per annum ('dpa'). The basic five-year requirement is therefore this figure multiplied by five years; which **equals 2,675 units**.

#### Is there a backlog of supply?

- In calculating a 5YHLS requirement there must be an assessment determining whether there has been a shortfall of housing delivery against adopted planned requirements from previous years. This should be calculated from the base-date of the adopted plan and added to the basic-five-year requirement.
- 2.8 However, the PPG (ID: 68-031) confirms that in circumstances where the Standard Method is used to calculate the 'basic' five-year requirement (which is the case for Mid-Suffolk) 'Step 2' of the calculation already factors in past under-delivery by resetting the calculation. Consequently,

no backlog of supply should be added to the 'basic' five-year requirement in the case of Mid-Suffolk district.

### What is the appropriate buffer?

Paragraph 73 of the NPPF (2019) requires an additional buffer should be added to the five-year requirement. It presents three potential buffers as detailed below:

"The supply of specific deliverable sites should in addition include a buffer (moved forward from later in the plan period) of:

- 5% to ensure choice and competition in the market for land; or
- 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan(38), to account for any fluctuations in the market during that year; or
- 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving a planned supply(39)".
- 2.10 Firstly, this 5YHLS statement is not an 'Annual Position Statement' ('APS') and therefore a 10% buffer is not appropriate for Mid-Suffolk district<sup>1</sup>. The appropriate buffer for the district is as a consequence either a default 5% or a 20% buffer.
- 2.11 A 20% buffer is only appropriate where there 'has been a significant under delivery of housing over the previous three years'. As per Footnote 39 of the NPPF (2019), this is determined by the district's Housing Delivery Test ('HDT') measurement. Where an LPA records an HDT measurement below 85%, Footnote 39 requires the addition of a 20% buffer. Should the measurement be above 85%, a 5% buffer is appropriate.
- 2.12 The latest HDT (2019) was published in February 2020, Mid-Suffolk district recorded a measurement of 123% as detailed in Table 2.1. Therefore, a 5% buffer is appropriate for Mid-Suffolk

	2016/17	2017/18	2018/19	Total		
Number of Homes Required	420	430	585	1,435		
Number of Homes Delivered	305	426	690	1,421		
2019 Measurement	99%					
2019 Consequence	None					

Table 2.1 Mid-Suffolk District Council HDT 2019 Measurement

Source: MHCLG (published February 2020)

# The Council's five-year housing requirement

Bringing the above together the Council's 5YHLS requirement is **2,809 units** in the five-year period from 1<sup>st</sup> April 2020 to the 31<sup>st</sup> March 2025 as detailed in Table 2.2 below.

<sup>1</sup> An APS is a report examined by the Planning Inspectorate that can 'confirm' (i.e. fix) an LPAs 5YHLS for a year. However, given policy restrictions, Mid-Suffolk district is at present unable to submit an APS for examination.

2.13

Table 2.2 Assessment of Mid-Suffolk District Council 5YHLS Requirement

Mid-Suffolk District Council 5YHLS Requirement					
Annual Requirement 535 dpa					
Shortfall	n/a				
Buffer	5%				
Total five-year requirement	2,809 units				

Source: Lichfields Analysis

2.14 Therefore, for the Council to be able to demonstrate a 5YHLS it must have a deliverable supply equal to or greater than 2,809 units in the five-year period. The next sections present an assessment of the Council's deliverable supply including a summary of what constitutes a 'deliverable' site.

2.15 The Government are currently consulting on changes to the standard method formula. The Council note this but given this is currently at consultation stage only, it is not appropriate to assess the Council's supply against the current output of the proposed methodology until such a time as a new calculation is introduced.

# Housing Supply: The Council's Approach to Demonstrating Deliverability

3.1

To demonstrate a 5YHLS, the Council must identify specific '*deliverable*' sites sufficient to provide a minimum of five years' worth of housing: in this case 2,809 units between the 1<sup>st</sup> April 2020 and the 31<sup>st</sup> March 2025. This section of the 5YHLS report considers what a '*deliverable*' site is in accordance with policy and guidance. It also details how the Council has gone about demonstrating the deliverability of sites in the district.

## **Policy and guidance**

#### The definition of 'deliverable'

3.2 A 'deliverable' site is defined in the NPPF (2019) glossary (Annex 2) as:

"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

a) **sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable** until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).

b) where a site has **outline planning permission for major development, has been allocated in a development plan**, has a grant of permission in principle, or is identified on a brownfield register, **it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years**." (Lichfields emphasis)

Unpacking the above definition, to be considered 'deliverable' all sites must be both 'available now' and 'offer a suitable location for development now':

Being 'available now' means that the site does not have any ownership barriers that will impede development. An example of where a site would not be available now would be where the site is in multiple ownerships in such a way that it would restrict it coming forward now (see PPG ID: 3-019 for more detail).

Being 'suitable now' refers to whether a site should accommodate housing development. For example, a site may not be considered suitable for housing development if the land is designated as part of Site of Special Scientific Interest or in areas at risk of flooding or coastal change. Where a site has a planning permission or an allocation it is generally considered 'suitable' for housing.

In addition, sites must be 'achievable'; which means there is a 'realistic prospect' – the 'central test' of deliverability<sup>2</sup> – that it will be delivered at a point in time envisaged: in this case, within the five-year period. As explained in PPG (ID: 3-020) this is *"essentially a judgement about the economic viability of the site, and the capacity of the development to complete and ... sell the development over a certain period"*.

3.3

<sup>&</sup>lt;sup>2</sup> As per the 'North Worcestershire Golf Club' planning appeal (ref. 3192918) (IR 14.39 to 14.41)

3.6

3.7

In the context of 5YHLS the assessment of whether a site is 'achievable' depends on the size and planning status of the development in question. The definition of deliverable provides for two categories of sites:

#### Category A sites:

These are sites that involve non-major development or involve major development that has a detailed planning permission. These types of sites are inherently more certain of delivering within the five-year period given their planning status and/or size (non-major housing development is defined as a development less than 10 units or development on a site less than 0.5ha in size<sup>3</sup>).

Therefore, the PPG (ID: 68-007) confirms that these types of sites are considered deliverable 'in principle'. It is only in circumstances where the permission expires or there is 'clear evidence' that homes from these sites will <u>not</u> be delivered in the five-years should these sites no longer be considered deliverable.

#### • Category B sites:

Category B sites are those that involve major development without a detailed planning permission: for example, a site with an allocation for housing development or an extant outline planning permission. These are sites that are inherently less certain of delivery within the five-year period given a detailed permission must still be applied for and approved before homes can be delivered. Consequently, in accordance with the NPPF (2019), the Council must prepare site specific 'clear evidence' for these sites to be considered deliverable.

The Secretary of State recently confirmed his interpretation that the definition of 'deliverable' should not be taken as being a 'closed list'<sup>4</sup>. He stated that *"examples given in categories (a) and (b) are not exhaustive of all the categories of site which are capable of meeting that definition"* (Para B of the Consent Order). Therefore, sites not specifically listed in the definition of deliverable can be found to be 'deliverable' where that site can be shown to be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years'.

#### What is 'clear evidence' in respect of Category B sites?

There is no complete definition of 'clear evidence'; however, the PPG (ID: 68-007) provides a non-exhaustive list of what type of material can constitutes clear evidence in support of Category B sites. It states:

"Such evidence, to demonstrate deliverability, may include:

- current planning status for example, on larger scale sites with outline or hybrid permission how much progress has been made towards approving reserved matters, or whether these link to a planning performance agreement that sets out the timescale for approval of reserved matters applications and discharge of conditions;
- firm progress being made towards the submission of an application for example, a
  written agreement between the local planning authority and the site developer(s) which
  confirms the developers' delivery intentions and anticipated start and build-out rates;
- firm progress with site assessment work; or

<sup>&</sup>lt;sup>3</sup> As defined in The Town and Country Planning (Development Management Procedure) (England) Order 2015

<sup>&</sup>lt;sup>4</sup> See Consent Order for East Northamptonshire Council v Secretary of State for Communities and Local Government (C0/917/2020) - https://cached.offlinehbpl.hbpl.co.uk/NewsAttachments/RLP/C0009192020.pdf

- clear relevant information about site viability, ownership constraints or infrastructure provision, such as successful participation in bids for large-scale infrastructure funding or other similar projects."
- 3.8 Given there is no exhaustive definition of 'clear evidence', it is ultimately a matter of planning judgement. Consequently, there has been debate at a number of planning appeals regarding what does and what does not constitute clear evidence. The Council is well aware of this issue following the 'Woolpit' decision (ref. 3194926) in September 2018. Here, the Inspector determined that the Council's evidence was lacking against the relevant policy and guidance at that time. This resulted in the Council being unable to demonstrate a 5YHLS at that time.

3.9 Since the Woolpit decision, the relevant PPG guidance has been updated and there have been further appeal decisions that have considered the issue of 'clear evidence', some of these presenting alternative perspectives on particular issues. From a review of appeal precedent, the Council considers the below to be the key points of reference for preparing 'clear evidence':

#### 1 Deliverability is determined on the content and value of the evidence: not simply the fact that evidence itself has been provided.

As confirmed by the 'Popes Lane' decision<sup>5</sup>, it is the evidential value of the evidence gathered that demonstrates that a development's prospects of delivery are realistic: forming 'clear evidence'. The value of any site-specific evidence is itself dependant on the site's context and the specific circumstances of that site<sup>6</sup>.

#### <sup>2</sup> While there is no minimum criterion for clear evidence<sup>7</sup>, the type and form of 'clear evidence' for Category B sites will vary depending on circumstances of the site (e.g. its size or how quickly it is expected to deliver).

By way of example, the type and form of evidence that could be considered robust to demonstrate a 'realistic prospect' for a hypothetical Category (B) site that has outline permission for 50 units and has a reserved matters application pending consideration with an assumed output in line with average lead-in times/build rates for the district will be markedly different to that required for either a large-scale strategic site for 1,500 units that has an allocation but no extant outline permission, or a site that is assumed to be building out sooner and/or more quickly than has typically been the case for comparable sites in the district or elsewhere.

# 3 The Council should undertake a critical analysis of whatever evidence is gathered from developers.

In the 'Rectory Farm' decision<sup>a</sup> the Inspector noted that the Council did not simply accept the proforma returns from develops on face-value. Where the Council thought the rates overly ambitious, the rates were altered. This demonstration of critical judgement appeared to give additional weight to the Council's findings. Another Inspector in the earlier 'Land to the south of Williamsfield Road' decision<sup>a</sup> echoed these comments.

# The Council's approach to demonstrating the deliverability of its housing supply

In light of policy and guidance, the below explains the Council's methodology to demonstrating the deliverability of its supply.

<sup>&</sup>lt;sup>5</sup> Appeal ref. 3216104 (IR 23)

<sup>&</sup>lt;sup>6</sup> Confirmed in both the 'Popes Lane' (ref. 3216104 (IR 23) and 'Rectory Farm' (ref. 3234204) (IR 32) decisions

<sup>&</sup>lt;sup>7</sup> Land to the South of Williamsfield Road (ref. 3207411) (IR 27)

<sup>&</sup>lt;sup>8</sup> Appeal ref. 3234204 (IR 32)

<sup>&</sup>lt;sup>9</sup> Appeal ref. 3207411 (IR 27)

- 3.11 All sites included in this calculation have been identified as being deliverable and will make a contribution to the Council's supply in the relevant five-year period. While the evidence post-dates the base date (which is an inevitable product of how annual monitoring is carried out) the Secretary of State recently confirmed that this is accepted given it supported sites identified as deliverable as of the base date<sup>10</sup>.
- 3.12 In reviewing the sites, the Council has first removed sites that have a net zero contribution to housing supply and then split up the trajectory between the two Categories of supply: A and B. Following the recent SoS confirmation that the definition of 'deliverable' should not be interpreted as a 'closed list' the Council takes this as meaning that any site not specifically listed in Category A (which are presumed to be deliverable) falls in to Category B (requiring 'clear evidence' to be deliverable)<sup>11</sup>.

#### **Category** A

- 3.13 In respect of **Category A** sites, the Council has:
  - 1 Split out development (both major and non-major) that has commenced and notcommenced;
  - 2 Split out non-major development under each of these categories from step 1. Unless the Council has received site specific evidence that non-major development sites are no longer viable, or the permission has expired, the Council has presumed these non-major development sites to be deliverable in accordance with the definition of deliverable (Annex 2, NPPF, 2019) and the PPG (ID: 68-007). It is also anticipated that these sites will deliver within years one to three of the trajectory;
  - 3 For major development sites that have commenced the Council presumes these are deliverable and have applied local median build rates (unless there is any robust site-specific delivery evidence);
  - 4 For major development that has yet to commence, the Council again presumes these are deliverable absent evidence to the contrary. Local lead-in times and median build rates have then been applied to these sites (unless there is any robust site-specific delivery evidence);
  - 5 For some of the larger Category A sites expected to deliver beyond the five-year period, the Council has issued a 'Category A proforma' to relevant developers/landowners/agents requesting that they confirm the expected delivery from these sites in the five-year period. The proforma also requests details on what, if any, impact the COVID-19 pandemic has had on the site's delivery and asks for justification of the proposed build rates put forward. A copy of this proforma can be seen at Appendix 3; and
  - 6 Finally, a wider consultation has been undertaken on this 5YHLS report to gather additional comments on its Category A sites.

#### **Category B**

3.14

In respect of **Category B** sites, the Council has undertaken an exercise of gathering 'clear evidence' to demonstrate these sites are deliverable. As a starting point, each Category B site is considered not to be deliverable and only where the Council is satisfied there is clear evidence in

<sup>&</sup>lt;sup>10</sup> 'Land to the East of Newport Sands' (ref. 3169314) (Para 12)

<sup>&</sup>lt;sup>11</sup> It should also be noted that the Council considers residential conversions via permitted development rights to fall in to Category A as these have a 'detailed' permission from The Town and Country Planning (General Permitted Development) (England) Order 2015. This approach has been endorsed by the Secretary of State in the 'Land to the East of Newport Sands' decision (ref. 3169314) (Para 12)

3.20

support of these sites has it concluded that site to be deliverable. Further detail as to how the Council has gathered 'clear evidence' is presented below.

#### The Council's approach to preparing 'clear evidence' for Category B sites

- 3.15 In light of our analysis of relevant policy and guidance, the Council has sought to gather 'clear evidence' to support the deliverability of its Category B sites.
- 3.16 Where a site with outline permission also had a reserved matters application submitted but not determined – at the base date the Council considers this to be sufficient clear evidence in and of itself of the sites deliverability (irrespective of whether or not a proforma was returned). Such sites already had firm progress towards becoming a Category A site with a detailed permission (through the submission of a reserved matters).
- 3.17 For other Category B sites, the Council prepared a 'Category B site proforma' (prepared jointly with Mid-Suffolk): a copy of which can be seen at Appendix 3. This proforma was sent to the relevant developers/landowners/agents of Category B sites. As can be seen, the proforma:
  - Confirms to developers/landowners/agents that the Council, as a starting point, approach all Category B sites as not being deliverable;
  - Requires details of the progress being made towards the submission of detailed applications, the discharge of conditions, and the progress of site assessment work;
  - Requires details of whether a house builder/s has been secured to develop the site and if not, what progress has been made to do so. This is to consider the capacity of a particular house builder/s and the likely lead-in times if one has not been secured;
  - Asks the respondent to provide their anticipated build-out trajectory for the site and importantly to justify why the rates suggested are reasonable. For example, details are requested on how many outlets are likely to be delivering from the site and the levels of affordable housing: both of which are known to impact delivery rates<sup>12</sup>; and
  - Requires details of key risks in achieving the identified trajectory. This includes questions regarding whether the site is available now; relevant viability information; relevant infrastructure information; and the potential impact of the COVID-19 pandemic.
- 3.18 The Council considers that the proforma seeks to ascertain a variety of site-specific evidence that, taken together, will be of a high-evidential value sufficient to demonstrate the deliverability of a full range of Category B sites where they are to be included. The questions not only expand upon the examples of what constitutes 'clear evidence' in the PPG (ID: 68-007) but they are written to be deliberately direct in order to elicit firm and detailed responses.
  - Crucially as made clear on the proforma the Council has undertaken its own assessment of the proforma returns. This is to consider whether the evidence provided is realistic and robust. In addition, the Council has undertaken a wider consultation on this report to gather additional comments on the deliverability of its sites.

# How has the Council assessed and applied lead-in times and build rates for both Category A and B sites?

The Council has undertaken a local analysis of developments across both Babergh and Mid-Suffolk districts to benchmark lead-in times and build rates for differing site sizes. This local analysis has also supplemented with national evidence detailed in Lichfields' research 'Start to Finish' (second edition) published in February 2020. These together:

<sup>&</sup>lt;sup>12</sup> As detailed in Lichfields research 'Start to Finish' (second edition) published in February 2020

- Provide a benchmark to assess whether proforma returns are realistic taking account of additional detail provided that could justify higher rates; and
- Provide statistical averages that can be applied in the Council's trajectory to sites (by size) where the developer/landowner has not provided expected delivery rates.

This analysis is fully detailed in Appendices 4 and 5; however, Table 3.1 and Table 3.2 below details a summary of the findings. In the table:

- Lead-in Time (1) = the time from validation of first application to first completion; and
- Lead-in Time (2) = the time from approval of first detailed permission to first completion.

Table 3.1 Local Lead-in Time Analysis

Site Size	Lead-in Time (1)		Lead-in	Sample Size	
	Mean	Median	Mean	Median	
10-99 dwellings	3.3 years	2.7 years	2.0 years	1.6 years	13
100-499 dwellings	3.4 years	3.3 years	1.7 years	1.6 years	37

Table 3.2 Local Build Rate Analysis

Site Size	Build Rate Averages	Build Rate Medians	Sample Size
10-49 dwellings	14 dpa	13 dpa	8
50-99 dwellings	29 dpa	32 dpa	17
100-499 dwellings	46 dpa	33 dpa	8

Source: Babergh District Council / Mid-Suffolk District Council / Lichfields Analysis

3.22 The median lead-in times and build-rates have been applied in the accompanying trajectory to sites where the Council has no site-specific information or where the Council considers proposed rates/lead-in times to be overly optimistic. The median is used as the benchmark given this is the mid-point scheme: accounting for a distribution of data that is not equal around the average.

# How has the Council considered the impact of the COVID-19 pandemic in its assessments for both Category A and B sites?

The below sets out the Council's consideration and approach to assessing the impact COVID-19 will have on delivery in the district. This includes a review of market signals and appeal precedent in terms of calculating 5YHLS post-COVID.

#### **Market intelligence**

The Council has engaged with developers regarding the impact of the pandemic. As of now, many local developers have already indicated a positive trend. Whilst they note there was an initial sharp downturn to the economy and delivery as a result of the lockdown this is beginning to reverse. Through a local developers' forum, it was estimated that delivery in the 2020/21 period would likely be reduced by a third of what had been expected. More detail was provided in some of the proformas returned as part of the 5YHLS engagement exercise. For example, Taylor Wimpey commented as part of the five-year housing land supply evidence that its sites closed down during lockdown, but they had been steadily getting back online, with full staff levels albeit working in a different way. Following a period of slow sales, it was experiencing a steady sales rate typically at a 30%+ reduction to its previous rates, across the region, but were

3.24

optimistic about a small recovery in 2021/22 with further gains in 2022/23. Persimmon has also indicated that the pandemic had not had a detrimental impact on sales thus far.

Nationally, a number of developers have provided trading updates to the stock exchange including:

- Barratt's trading update on the 6<sup>th</sup> July 2020 notes a yearly drop of 29.4% in completions to March 22<sup>nd</sup> 2020 as a result of the COVID-19 pandemic compared to the previous year. It also states that on sites that have been reopened for four weeks or more are operating at c.75% of construction levels prior to lockdown given social distancing requirements.
- 2 Taylor Wimpey Business Update of the 5th June 2020 states the team are on track to reach meaningful production capacity from the end of June 2020 and that their priority remains scaling up operations in a controlled, safe and responsible way. More recently, Berkeley has indicated that it expects to deliver 40% fewer homes this year.
- 3 Persimmon released a COVID-19 Update on the 14th May 2020 which stated that the Group began a phased return to work on its construction sites in England and Wales on 27 April 2020 and that during the week beginning 4 May 2020 c. 65% of production capacity had been restored.
- 4 Berkeley Final Results Announcement of the 17th June 2020 state that after an initial reduction to around 40% of normal production capacity, activities have been largely restored and stabilised through the effective implementation of these safe working practices and, on average, sites are currently operating at around 80% of production capacity.
- 5 Bellway's Trading Update published on the 9th June 2020 stated that resuming construction activity on a phased basis began on Monday 4 May, focusing primarily on those properties in the latter stages of production. Following the success of this trial, Bellway has now restarted construction activity on around 230 sites, although productivity is reduced, and work is still primarily limited to those homes which are nearing completion. Over the coming weeks, the careful introduction of further social distancing working practices should enable more than one tradesperson to work in a home at the same time, albeit on separate floors. This will help to increase the construction rate, whilst maintaining a safe onsite working environment.
- 6 Redrow's Trading Update of the 30th June 2020 stated that construction activities were currently underway across 124 developments. The new construction protocols that have been put in place, together with extended customer handover procedures, lengthened build times and this will continue to impact the pace of output over coming weeks.
- 7 Vistry Trading Update of 20th May 2020 states over 70% of normal production capacity has already been restored as teams get used to the new COVID-safe operating procedures.

### Appeal precedent

There have also been a few appeal decisions issued since the start of the pandemic that consider the impact of COVID-19. These focus on whether an appellant should make a blanket discount to a LPA's housing supply position as a result of the pandemic. In summary:

- Land North of Nine Mile Road (LPA: Wokingham) (ref. 3238084): This decision was issued on the 9<sup>th</sup> April 2020: i.e. at the start of lockdown. The Inspector agreed with the appellant that given the impact of the lockdown many sites had been temporarily mothballed and concluded a blanket discount should be made to the Council's supply;
- Land at Hawthorns (LPA: Waverley BC) (ref. 3211033): This appeal was recovered by the Secretary of State. In this appeal the Secretary of State noted the Wokingham appeal but did not apply a blanket discount to the Council's supply. This was because the appellant

3.26

did not put forward any specific evidence about the deliverability of sites and the specific impact of COVID-19;

- Woburn Sands (LPA: Milton Keynes) (ref. 3169314): This is another recovered appeal by the Secretary of State. Again, the Secretary of State made no blanket discount given the appellant put forward no site-specific evidence about the deliverability of individual sites in relation to COVID-19.
- 3.27 As of writing, the Council is unaware of a decision relating to a case in which the Council has applied a discount to their own supply to account for the impacts of COVID-19.

#### The Council's approach

- 3.28 Taking the above together, the Council has applied a COVID-19 discount to the delivery of sites in 2020/21. This is not a blanket approach and has only been applied to sites where the Council have used median lead-in times and build rates to determine delivery within the five-year period. For this discount, it has been assumed that a developer's capacity to build will only be 55% of a normal year (i.e. a 45% discount). This discount accounts for:
  - 1 An initial three-month period (from April to June 2020) where the Council takes a 'worstcase' position that no completions would have been recorded during the main period of lockdown; and
  - 2 For the remaining nine-month period (from July 2020 to the end of March 2021) where delivery output is 75% of normal rates given social distancing requirements on construction sites.
- 3.29 No discount is applied from April 2021 whereby it is assumed delivery output will be 100% of normal build rates. Of course, this is an evolving position and the Councils do not know how long social distancing will remain and in what format, but a period to end of March 2021 is considered a reasonable assumption at this stage. Even if they are still in place at this point, it is considered that by this point developers will have had sufficient time to make efficient gains to allow them back up to full delivery output.
- 3.30 The below sets out some examples of how the discount works in practice:
  - If a 100-unit development was under construction and was expected to deliver at the median rate of 33 dpa in 2020/21 the Council have assumed that only 18-units will actually be delivered; and
  - If a 100-unit scheme was under construction but only had 10 units to complete in 2020/21, then it would be assumed that all 10 units will be delivered. This is because 10 units is within 55% of normal capacity (in this case a maximum of 18 units).
  - As aforementioned, the Council has only applied a COVID-19 discount to sites where the Council applies median lead-in times and build-rates. For sites with a proforma return (either Category A or B), the developers own figures have typically been applied because this is already factored into their assumptions. The Council has only done this where it is satisfied the proforma takes a prudent approach to delivery rates and fully considers the impact of COVID-19 on the site's delivery.
- 3.32 Finally, where sites where expected to start delivering units in 2020/21 based on median lead-in times, the Council has assumed delivery will now start from 2021/22. Again, this demonstrates a prudent approach allowing additional time for developments that would otherwise reasonably be expected to commence to get on site and deliver homes.
- 3.33 Overall, the approach taken is considered to be appropriately prudent. The effects of the pandemic to housing delivery are still unfolding, and the Council therefore applies what it

considers to be a worst-case scenario to delivery in 2020/21: as judged against the market intelligence set out above with most developers at between 70-80% capacity. While a more optimistic position could be adopted (i.e. a 30% discount or less) it is felt that to have the most robust supply position in a time of great uncertainty a worst-case scenario is appropriate. In any case, the discount does not make a significant difference to the overall supply position given most sites are of a scale that would still be expected to deliver in full within the five-year period irrespective of a discount to delivery in just the year 2020/21. While there is appeal precedent against applying a blanket 'COVID' discount, this is from the side of an appellant seeking to apply one retrospectively in circumstances where the Council's position pre-dates the pandemic. The Council's approach here is one of prudence and applying a discount now demonstrates an appropriate response to the current uncertainties. Furthermore, applying a discount from the outset negates any potential for a discount to be applied ad-hoc post publication of this report.

#### **Conclusions**

3.34

Overall, the Council has undertaken a thorough review of policy, guidance, and appeal precedent to determine the 'deliverability' of its sites. From this, the Council considers it has a robust methodology to taking account of a full range of factors. The next section details the findings of the Council from a full deliverability review of its supply trajectory.

4.1

# The Council's Five-Year Housing Supply: Specific Sites

The below summarises the findings of the Council's full deliverability review of the Council's deliverable supply reviewed in accordance with the methodology set out in Section 3.0. A separate table of housing supply accompanies this report detailing year-by-year completions. This includes key site information and a summary detailing why the Council considers each individual site to be deliverable. In addition, the returns from both the Category A and B proformas are included at Appendix 6.

#### **Proforma and consultation feedback**

4.2

The Council issued Category A proformas and Category B proformas to relevant developers/landowners/agents. In total, 16 sites have proforma returns (some proforma's cover multiple sites) which can be viewed at Appendixes 6 and 7 of this report.

Further feedback was provided regarding the sites' deliverability as part of the consultation of this report. [To be completed following the consultation]

### **Category A Sites**

The below summarises the Category A supply that the Council has identified. As per the review of policy and guidance in Section 3.0 of this report, these are sites that have a detailed planning permission and are presumed to be deliverable. Site-specific delivery rates and site commentary is included in the accompanying Mid-Suffolk 5YHLS Trajectory (2020).

#### Major (commenced)

In total, the Council has identified 24 major development sites that have already commenced development and are considered to be deliverable. The Council has received nine proformas in support of these sites. Across the five-year period these are expected to deliver 1,520 units.

РР Туре	No. Sites	Delivery in	Delivery in Five-Year Period				
		2020/21	2021/22	2022/23	2023/24	2024/25	Total
Full PP	13	149	151	120	126	77	623
Reserved Matters	11	129	255	230	173	110	897
Permitted Development	0	0	0	0	0	0	0
Total	24	278	406	350	299	187	1,520

Table 4.1 Major Development Sites Expected Five-Year Delivery (Commenced)

Source: Mid Suffolk District Council / Lichfields

### Non-Major (commenced)

4.5

In total, the Council has identified 194 non-major development sites that have already commenced development and are considered to be deliverable as of the base date. Across the five-year period these are expected to deliver 326 units. Given these are non-major development sites relating to development of nine or less units, it has been assumed that the majority will be built out in 2020/21 – even when applying a COVID discount. There are however a few sites of either eight or nine units in size where applying a COVID discount would mean some delivery in 2021/22.

4.3

Table 4.2 Non-Major Development Sites Expected Five-Year Delivery (Commenced)

Source: Mid Suffolk District Council / Lichfields

#### **Major (not-commenced)**

4.6

In total, the Council has identified 21 major development sites that have not yet commenced development but are considered to be deliverable as of the base date. Across the five-year period these are expected to deliver 973 units. As set out in Section 3.0, longer lead-in times have been applied to sites that would normally be expected to start delivering in 2020/21 given the COVID-19 pandemic. This results in their being no delivery in 2020/21 from this source of supply.

Table 4.3 Non-Major Development Sites Expected Five-Year Delivery (Not-Commenced)

РР Туре	No. Sites	Delivery in	Delivery in Five-Year Period				
		2020/21	2021/22	2022/23	2023/24	2024/25	Total

Permitted Development	0	0	0	0	0	0	0
Total	21	8	343	376	194	52	973

Source: Mid Suffolk District Council / Lichfields

#### Non-Major (not-commenced)

- 4.7 In total, the Council has identified 316 non-major development sites that have not yet commenced development but are considered to be deliverable as of the base date. Across the five-year period these are expected to deliver 646 units.
- 4.8 For non-major development, the Council has assumed that non-implemented sites with full planning permission, reserved matters, or permitted development right prior approvals to deliver in Year 2 (2021/22). Non-major permissions with outline permission are assumed to deliver in Year 3 (2022/23) to account for the need to gain reserved matters approval before commencement.

РР Туре	No. Sites	Delivery in	Delivery in Five-Year Period				
		2020/21	2021/22	2022/23	2023/24	2024/25	Total

Total	316	0	421	225	0	0	646

Table 4.4 Non-Major Development Sites Expected Five-Year Delivery (Not-Commenced)

Source: Mid Suffolk District Council / Lichfields

#### **Category B Sites**

- 4.9 From the Council's review, there are 11 deliverable Category B sites based on the evidence available. The reasoning for each site is set out in the accompanying Mid-Suffolk table of housing supply. Of these, the Council received a proforma for six sites. Nine sites (including five for which a proforma was returned) also had a reserved matters application submitted as of the base-date: four of which have since been approved.
- 4.10 Finally, it should be noted that the Council reviewed a further twenty-two sites (totalling 1,103 units) that currently have an extant outline planning permission: some of which had only recently been approved as of the base date. While proforma's were sent to relevant developers/landowners/agents and non were returned. The Council has therefore not considered these as being deliverable for the purposes of this assessment as they could not be demonstrated as deliverable at the base date. This includes a site that has since had a reserved matters application submitted after the base date which will be included in the Council's next 5YHLS assessment.

Table 4. Cateogry B Sites Expected Five-Year Delivery

РР Туре	No. Sites	Delivery in Five-Year Period					
		2020/21	2021/22	2022/23	2023/24	2024/25	Total
Outline Permission	11	0	76	201	215	212	704

Source: Mid Suffolk District Council / Lichfields

# The Council's supply from specific sites

Taking the above together, the Council has total deliverable supply of 4,169 from 566 specific sites. This comprises both Category A and B development from major and non-major sites. 44% of the development expected to be delivered in the five-year period are on sites that have already commenced as of the base date.

Table 4.5 Mid Suffolk District Council Deliverable Supply

# The Council's Five-Year Housing Supply: Windfall Allowance

This section considers the appropriate windfall allowance for Mid-Suffolk district in accordance with policy and guidance.

### **Policy and guidance**

5.2 The NPPF (2019) permits Council's to include an allowance for windfall (i.e. unplanned for) development. Paragraph 70 states:

"Where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends."

5.3 The PPG contains little specific guidance for calculating a windfall allowance. In respect of 'housing and economic land availability assessments', it simply states that an allowance may be justified subject to 'compelling' evidence (ID: 3-023). More related to demonstrating a 5YHLS, the PPG also explains what information an APS needs to include (OD: 68-014). This states that APSs should include details of permissions granted for windfall development by year and how this compares with the windfall requirement.

### Assessment of historic rates of windfall development

Monitoring records show that since 2014/15, windfall sites have consistently delivered a significant proportion of Mid-Suffolk's housing completions. Table 5.1 presents the total number of windfall completions between 2014/15 to 2019/20 as a proportion of total completions. This shows that since 2014/15, 78% of net completions on all residential development has been windfall sites (including garden land development and large sites).

Monitoring Year	Net Completions	Windfall Completions (Including Garden land development)	% of Net Completions		
2014/15	416	246	59%		
2015/16	304	240	79%		
2016/17	305	230	75%		
2017/18	426	292	69%		
2018/19	690	583	84%		
2019/20	433	425	98%		
Totals	2,574	2,016	78%		

Table 5.1 Windfalls as a Proportion of Net Completions

Source: Mid-Suffolk District Council / Lichfields Analysis

### Windfalls: methodology and calculation

The methodology for calculating the districts windfall allowance remains – in the main – consistent with that in the September 2019 'Housing Land Supply Position Statement'. Previous windfall development over the past seven years has been analysed and in doing so the following have been removed from the assessment:

- 1 Sites in residential gardens (given policy aims to restrict such development); and
- 2 Major development (i.e. 10 or more dwellings in size) as these sites would be expected to be allocated in the emerging plan and are therefore not a reliable source of supply moving forwards.

Further to the above, it has been established that the Council does not hold complete records to allow identification of all windfall sites for fewer than ten dwellings granted on appeal. Where such information is available, it would usually be the case that relevant records are considered a potentially unreliable source of future supply based on their contribution to past trends.

#### **Sources of windfall**

There are a variety of sources of windfall development in the district. Figure 5.1 and Table 5.2 presents a breakdown of the sources of windfall development (excluding garden development). As also shown in Table 5.2, in the last six years, the largest proportions of windfall development have come from agricultural buildings/land, sites which have previously been in C-Class use, and greenfield sites.

Source: Mid-Suffolk District Council / Lichfields Analysis \*note this graph refers to the previous use classes.

5.7

Source of Windfall	Total Delivery	Proportion of Total Windfall development
A Use Class	44	8%
Agricultural Buildings/Land	223	40%
B Use Class	32	6%
C Use Class	114	20%
D Use Class	24	4%
Greenfields	79	14%
Mixed Use Class	11	2%
Sui Generis	35	6%

Table 5.2 Breakdown of Windfall Development in Mid-Suffolk District Since 2014/15

Source: Mid-Suffolk District Council / Lichfields Analysis \*note this table refers to the previous use classes.

Given the rural nature of the district and changes in modern agriculture it is reasonable to 5.8 assume that windfall completions on previous agricultural buildings/land and greenfield sites will continue to provide a consistent source of windfall. It is also expected that windfall completions on B Use Class buildings will continue to provide a very modest contribution due to the temporary change to permitted development rights remaining, as can development from former C Use Class Buildings. As shown in Figure 5.1 both of these sources have consistently delivered units since 2014/15.

#### Based on historical trends, the following sources of windfall development have been deemed unreliable in that they are unlikely to provide a reliable source of supply taking into account current and future planning policy:

- A Use Classes;
- D Use Classes;
- Mixed Use Classes; and
- Sui Generis.
- When removing these sources, Figure 5.2 details the windfall completions by year from what the 5.10 Council considers 'reliable' sources of windfall development. On average, the Council has delivered 74.6 dpa from these sources of windfall; albeit with a peaks in 2014/15 and 2018/19.

Recent fundamental changes have been announced to the Use Classes Order that will have come 5.11in to effect on the 1<sup>st</sup> September 2020. The primary change is the combination of various A, D, and B class development into a new 'E' Class allowing greater flexibility to move between uses. Furthermore, additional permitted development rights are being implemented – including the ability to demolish vacant office buildings and rebuild them with residential uses. At this stage, it is unclear how these changes will impact future levels of windfalls given there is no previous trend data or capacity study to make a robust future projection. For now, the above approach is considered prudent and robust based on past trends.

Source: Mid-Suffolk District Council / Lichfields Analysis

Consistent with the previous 5YHLS position statement (September 2019) the windfall allowance has only been included in years four and five to reflect an assumed three-year implementation period of planning permissions. This is to ensure no double counting occurs with current permissions. Based on the analysis above, it is concluded that there is compelling evidence that windfall allowance of 70 dpa in years four and five is justified and reasonable.

### Conclusion

5.13

On the basis of the above assessment the Council considered there is compelling evidence that a windfall allowance of 70 dpa for years four and five.

6.1

# The Council's Five-Year Housing Land Supply Position

The below summarised Mid-Suffolk District Council's concluded 5YHLS position for the relevant five-year period from the 1<sup>st</sup> April 2020 to the 31<sup>st</sup> March 2025.

#### **Summary**

#### The Council's five-year requirement

6.2

As detailed in Section 2.0, the five-year requirement is 2,809 dwellings across the five-year period. This is on the basis of the Standard Method annual requirement of 614 dpa plus a 5% buffer.

Table 6.1 Mid-Suffolk District Council 5YHLS Requirement

Mid-Suffolk District Council 5YHLS Requirement				
Annual Requirement	535 dpa			
Shortfall	n/a			
Buffer	5%			
Total five-year requirement	2,809 units			

Source: Lichfields Analysis

## The Council's deliverable supply

- 6.3 The Council has undertaken a thorough review of its housing supply to identify specific
   'deliverable' sites. These have been identified through the Council's annual monitoring process and are supported by 'clear evidence' where necessary.
- 6.4 As explained in this report and evidence in its appendices, the Council's process of identifying and evidencing the 'deliverability' of its sites has taken account of relevant policy, guidance and planning precedent. It has also been informed by a review of local and national lead-in times and build-out rates as well as taking account of local and national market signals: in particular the potential impact of COVID-19.
- 6.5 From this exercise, the Council considers it can demonstrate a supply of 4,169 units from specific sites. This report also provides compelling evidence that a windfall allowance of 70 units in years four and five is also justified. In total, the Council's five-year supply is therefore 4,309 units as detailed in Table 6.2.

Table 6.2 Mid-Suffolk District Council Deliverable Supply

Source of Supply	Supply (units)
Category A (Commenced)	1,846
Category A (Not Commenced)	1,619
Category B	704
Windfall Allowance	140
Total Supply	4,309

Source: Mid-Suffolk District Council / Lichfields Analysis

## **Consultation feedback**

#### [To be completed following the consultation]

### The Council's concluded 5YHLS position

On the basis of the above, the Council can demonstrate a 7.67-year supply between the 1st April 2020 to the 31st March 2025 as detailed in Table 6.3.

Table 6.3 Mid-Suffolk District Council's 5YHLS Position between 1st April 2020 to 31st March 2025

Five-Year Requirement	2,809
Total Supply	4,309
Years Supply	7.67 years
Surplus/Deficit	+1,500

Source: Mid-Suffolk District Council / Lichfields Analysis

Figure 6.1 Mid-Suffolk Five-Year Supply Projection

Source: Mid-Suffolk District Council / Lichfields

### **Scenario testing**

While not required by national policy, the Council has considered a number of scenarios in order to stress-test the Council's concluded 5YHLS position.

#### Scenario 1 – 10% buffer

As detailed in Section 2.0 of this report, a 10% buffer would only apply should the Council wish to confirm its supply. While the Council is unable to confirm its supply now, it may wish to do so through the emerging Joint Local Plan. In this Scenario, the Council would be able to demonstrate a 7.56-year supply as detailed below.

6.7

6.8

Table 6.4 Mid-Suffolk District Council's 5YHLS: Stress Test Scenario 1

Five-Year Requirement (10% buffer)	2,943
Total Supply	4,309
Years Supply	7.32 years
Surplus/Deficit	+1,366

Source: Mid-Suffolk District Council / Lichfields Analysis

#### Scenario 2 – 20% buffer

6.9

As detailed in Section 2.0 of this report, a 20% buffer would be imposed on the Council should its 2020 HDT (due to be published in November 2020) measurement be less than 85%. The Council does not anticipate this will occur given the 2019/20 completions recorded. However, should for whatever reason a 20% buffer be imposed the Council would be able to demonstrate a 6.93-year supply as detailed below.

Five-Year Requirement (20% buffer)	3,210
Total Supply	4,309
Years Supply	6.71 years
Surplus/Deficit	+1,099

Source: Mid-Suffolk District Council / Lichfields Analysis

#### Scenario 3 – Small sites lapse

6.10

There is no requirement to apply a lapse rate to small sites however in some cases LPAs have considered it appropriate. In the case of Mid-Suffolk there is no evidence to suggest a lapse rate is justified. However, the below sets out three scenarios whereby a lapse rate of either 5%, 10%, or 20% has been applied to all non-major small sites: which currently totals 972 units. The below scenario is not advanced by the Council as the basis for its 5YHLS assessment, but the exercise serves as a demonstration of the Council's robust supply. Indeed, even if all non-commenced small sites lapsed with no delivery – an unlikely scenario – the Council would still be able to demonstrate a five-year supply with a 5% buffer given a surplus of 1,500 units has been demonstrated. This is of course despite applying prudent median local build rates and a worst case COVID-19 scenario for 2020/21 to ensure a robust supply position.

Table 6.6 Mid-Suffolk District Council's 5YHLS: Stress Test Scenario 3

Small Site Lapse Rate	5% SS Lapse	10% SS Lapse	20% SS Lapse
Five-Year Requirement (5% buffer)	2,809	2,809	2,809
Total Supply (Applying SS Lapse)	4,260	4,212	4,115
Years Supply	7.58 years	7.50 years	7.32 years
Surplus/Deficit	+1,451	+1,403	+1,306

Source: Mid-Suffolk District / Lichfields Analysis

# Appendix 1 Glossary of Terms

**Annual Position Statement (APS):** A document prepared by a Local Planning Authority with engagement with local developers/landowners/interested parties that is submitted to the Planning Inspectorate. This can 'confirm' a Local Planning Authority's Five-Year Housing Land Supply position for up to a year.

**A Use Class**: Use of premises for shops, financial and professional services, restaurants and cafes, drinking establishments or hot food takeaways as described in the Town and Country Planning (Use Classes) Order 1987 (as amended).

Build Rate: The annual build-out rate of new dwellings on a site.

**B Use Class**: Use of premises for business, general industrial or storage and distribution as described in the Town and Country Planning (Use Classes) Order 1987 (as amended).

**Condition Discharge Application**: A type of application where a condition in a planning permission or a listed building consent requires details of a specified aspect of the development (which was not fully described in the original application) to be approved by the local planning authority before the development can begin. This is also commonly known as 'discharging' conditions.

**Core Strategy**: The Core Strategy is one of the development plan documents forming part of a local authority's Local Plan (formerly the Local Development Framework). It sets out the long-term vision for the area, the strategic objectives, and the strategic planning policies needed to deliver that vision.

**Conditions (or 'planning condition'):** A condition imposed on a grant of planning permission (in accordance with the Town and Country Planning Act 1990) or a condition included in a Local Development Order or Neighbourhood Development Order.

**C3 Use Class**: Use of premises as a 'dwelling house' by a single person or by people living together as a family; or by no more than six people living together as a single household, as described in the Town and Country Planning (Use Classes) Order 1987 (as amended).

Deliverable: As defined in Annex 2 of the National Planning Policy Framework (2019):

"To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).

b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years."

**Detailed Planning Permission**: A planning permission that can be implemented (i.e. a full planning permission or a site with both an outline permission and reserved matters approval).

**Development Plan**: A document setting out the local planning authority's policies and proposals for the development and use of land and buildings in the authority's area. This includes adopted Local Plans and neighbourhood plans, and is defined in section 38 of the Planning and Compulsory Purchase Act 2004.

**D** Use Class: Use of premises including non-residential institution or for assembly and leisure as described in the Town and Country Planning (Use Classes) Order 1987 (as amended).

#### **Dwellings per Annum (dpa)**

First Housing Completion: The date of the first housing completion on site.

**Five Year Housing Land Supply (5YHLS)**: Paragraph 73 of the National Planning Policy Framework (2019) requires Local Planning Authorities to be able to demonstrate five years' worth of housing: known as a Five Year Housing Land Supply.

**Housing Delivery Test (HDT):** As defined in Annex 2 of the National Planning Policy Framework (2019) as a mechanism which measures net additional dwellings provided in a local authority area against the homes required, using national statistics and local authority data. The Secretary of State should publish the Housing Delivery Test results for each local authority in England every November. The outcome of which determines whether a 5% or 20% buffer is applied to the five-year land supply requirement.

**Lead-in Time**: This measures the period up to the first housing completion on site from the submission date of the first planning application made for the scheme.

**Local Housing Need (LHN):** The number of homes identified as being needed through the application of the Standard Method set out in national planning guidance (or, in the context of preparing strategic policies only, this may be calculated using a justified alternative approach as provided for in paragraph 60 of this Framework) as defined in Annex 2 of the National Planning Policy Framework (2019).

**Local Plan:** Defined in Annex 2 of the National Planning Policy Framework (2019) as a plan for the future development of a local area, drawn up by the local planning authority in consultation with the community. In law this is described as the development plan documents adopted under the Planning and Compulsory Purchase Act 2004. A local plan can consist of either strategic or non-strategic policies, or a combination of the two.

**Local Plan Allocation**: Sites identified within a Local Plan for housing, industry or other use that identifies a specific area of land to be developed within the time period of the Plan.

**Local Planning Authority**: The local authority that exercise planning powers (i.e. determines local planning applications and prepares planning policy).

**Mixed Use Class**: Use of premises which provides a mix of complementary uses, such a residential, community and leisure uses, on a site or within a particular area.

**National Planning Policy Framework (NPPF)**: sets out government's planning policies for England and how these are expected to be applied. The most recent NPPF was published in February 2019.

**National Planning Practice Guidance (Guidance):** The National Planning Practice Guidance ('PPG') adds further context to the NPPF.

**Net Completions:** Measures the absolute increase in stock between one year and the next, including other losses and gains (such as conversions, changes of use and demolitions).

**Outline Planning Permission**: A general application for planning permission to establish that a development is acceptable in principle, subject to subsequent approval of detailed matters.

**Pre-Commencement Condition**: A condition imposed on a grant of planning permission (in accordance with the Town and Country Planning Act 1990) or a condition included in a Local

Development Order or Neighbourhood Development Order which must be discharged prior to commencement of development.

**Reserved Matters Application (RM):** The application for approval of reserved matters should be made after the grant of outline planning permission and should deal with some or all of the outstanding details of the outline application proposal, including appearance, means of access, landscaping, layout and scale.

Start on Site: The point at which site works commence.

**Sui Generis**: Uses of land and buildings which do not fall within a specified use class of the Town and Country Planning (Use Classes) Order 1987 (as amended).

**Windfall Sites**: Defined in Annex 2 of the National Planning Policy Framework (2019) as Sites not specifically identified in the development plan.

**Windfall Allowance:** An allowance made in the five-year land supply for windfall sites (as defined above).

# Appendix 2 Standard Method Calculation for Mid-Suffolk District Council (2020)

The below details the calculation of the Standard Method figure for Mid-Suffolk district in accordance with the latest PPG (see ID: 2a-004).

#### Step 1 – Setting the baseline

The districts 2014-based housing projections<sup>13</sup> are:

- 44,652 households in 2020
- 48,733 households in 2030

Therefore, 4,081 new households are projected in the district during this period. This equates to an average of 408 new households per year.

#### Step 2 – An adjustment to take account of affordability

The districts median workplace-based affordability ratio (i.e. the ratio of workplace-based earnings to house prices) is 8.99. Given this is over 4, the following adjustment is required.

The adjustment factor is calculated using the following formula:

Figure 6.2 Adjustment Factor Formula - Standard Method

 $Adjustment\ factor = \left(\frac{Local\ affordability\ ratio\ -4}{4}\right)x\ 0.25 + 1$ 

Source: National Planning Policy Guidance (ID: 2a-004)

Therefore, the adjustment factor for the district is 1.311875.

#### Step 3 – Capping the level of any increase

The level of increase of the adjustment factor is capped depending on whether or not the Council has adopted a local plan within the last five-years. Given the Mid-Suffolk Core Strategy (2008) is more than five-years old, the potential cap is 40% above the higher of:

- a The average household growth for the district calculated in step 1: 408 dpa; or
- b The average housing requirement figure set out in the most recently adopted strategic policies (i.e. the Mid-Suffolk Core Strategy): 430 dpa.

In the case of Mid-Suffolk, the housing requirement from the Mid-Suffolk Core Strategy is the greater figure. Therefore, the potential cap is 430 dpa times 1.4 = 602.

The average baseline figure (calculated in Step 1) times the adjustment factor (calculated in Step 2) equals 535 dpa which is below the cap of 602 dpa.

The Standard Method figure for Mid-Suffolk District Council with a 2020 base date is therefore 535 dpa.

<sup>&</sup>lt;sup>13</sup> In calculating the standard method more recently published household projections are not used in accordance with the PPG (ref. 2a-005)

# Appendix 3 Category A and B Proformas

## Mid-Suffolk & Babergh District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

### Site Address:

#### [<mark>INSERT</mark>]

## **Developer/Site Promoter:**

[<mark>INSERT</mark>]

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Mid-Suffolk and Babergh District Councils to prepare the Council's respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

#### 1. <u>Site Planning Status (completed by the Council):</u>

- Allocation reference: [INSERT]
- Outline Planning Permission reference: [INSERT]
- Reserved Matters reference: [INSERT]
- Full Planning Permission reference: [INSERT]
- Brownfield Register reference: [INSERT]
- Permission in Principle reference: [INSERT]
- No Planning Status/Other (please explain): [INSERT]
- 2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
XX	XX XX	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	XX XX

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
XX	<mark>XX</mark>							

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

#### [<mark>INSERT</mark>]

4. In support of the above trajectory, please provide a brief justification for the assumed build rates with refere to factors such as the number of outlets, affordable housing, and market trends:

## Mid-Suffolk & Babergh District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY B SITES

### Site Address:

#### [<mark>INSERT</mark>]

## **Developer/Site Promoter:**

[<mark>INSERT</mark>]

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Mid-Suffolk and Babergh District Councils to determine the deliverability of the site in question. The questions below have been tailored to address the deliverability factors cited in Annex 2 of the revised National Planning Policy Framework (2019) and the National Planning Policy Guidance (ID: 68-007). In particular, for major development sites not benefitting from full permission, the Council can only include them within its five-year land supply if there is 'clear evidence' that housing completions will begin on site within five years.

The information sought below is necessary for the Councils to make an effective judgement as to whether the site in question is deliverable. Therefore, please provide as much detail as possible when responding to the questions. Absent this, the Councils may not be able to conclude the site in question is deliverable. Not all of the questions will be relevant for your site – for example if development has already commenced – but please try to complete as fully as you can.

#### Site Planning Status (completed by the Council):

- Allocation reference: [INSERT]
- Outline Planning Permission reference: [INSERT]
- Reserved Matters reference: [INSERT]
- Full Planning Permission reference: [INSERT]
- Brownfield Register reference: [INSERT]
- Permission in Principle reference: [INSERT]
- No Planning Status/Other (please explain): [INSERT]
- 2. What progress is being made towards the submission of application(s) (i.e. Outline & <u>RM or Full applications) required to be granted before development may lawfully</u> <u>commence?</u>

#### [<mark>INSERT</mark>]

(please include any pre-application references, anticipated dates of submission for future applications and justification for why the date anticipated is realistic) 3. <u>What progress is being made on site assessment work and the discharge of</u> <u>conditions required for an application submission and / or before development may</u> <u>lawfully commence?</u>

#### [<mark>INSERT</mark>]

(please also provide details of relevant pre-commencement conditions that have been discharged – including references – and which pre-commencement conditions still need to be discharged)

4. <u>Please provide details of any house builder(s) secured to develop the site:</u>

[<mark>INSERT</mark>]

a. What is their track record of building and selling in the local market?

[<mark>INSERT</mark>]

b. <u>If no house builder is yet in place, what progress has been made and when</u> will one be contracted to build out the site?

[<mark>INSERT</mark>]

5. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
XX	XX	XX	XX X	XX	XX

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
XX	XX	XX	XX	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	XX

(if the site is expected to deliver both within and beyond the five-year period – please detail the expected delivery beyond 1<sup>st</sup> April 2025 if known as well. This will support the Council's local plan trajectory which is also being prepared)

In support of the above trajectory, please also provide the following information:

a. <u>When will construction on site likely begin (i.e. opening up works, not when</u> <u>the first house is delivered)?</u>

[<mark>INSERT</mark>]

b. <u>When is the first house anticipated to be completed?</u>

c. If relevant, is there a phasing plan for the site?

#### [<mark>INSERT</mark>]

(If there is please provide basic details including when each phase is likely to start/complete and how many homes in each phase)

d. How many outlets are likely to be delivering from the site and/or phase?

#### [<mark>INSERT</mark>]

e. <u>What level of affordable housing is to be delivered on the site and when are these likely to be delivered? Has a Registered Provider been selected?</u>

#### [<mark>INSERT</mark>]

f. <u>Please summarise why there is a realistic prospect of achieving the rate of build out assumed for the site.</u>

#### [<mark>INSERT</mark>]

g. If the site is already under-construction and you estimate a higher build rate than has been achieved on the site in the most recent years, please explain why this increase is realistic.

[<mark>INSERT</mark>]

- 6. <u>What are the key risks to achieving the trajectory identified above and how are you</u> <u>mitigating against these risks? In particular:</u>
  - a. <u>Has a S106 been agreed with the Council for this site? If not when do you anticipate one to be agreed?</u>

#### [<mark>INSERT</mark>]

b. <u>Is the development viable as approved / allocated, or do you anticipate</u> <u>amendments will need to be made?</u>

[<mark>INSERT</mark>]

c. Is the site available for development now?

#### [<mark>INSERT</mark>]

d. <u>Are there site ownership, access or other legal constraints that could affect</u> <u>the commencement of development? (i.e. ransom strips, land assembly</u> <u>issues etc).</u>

e. <u>What (if any) infrastructure provision is necessary to support / enable the</u> <u>development to commence and is there funding in place to deliver it?</u>

#### [<mark>INSERT</mark>]

(if the development is reliant on or has secured any grant funding for relevant supporting infrastructure please provide details of this here)

f. What could be the impact of the COVID-19 pandemic be on the delivery of this site or achievement of the build out rate? How are you mitigating against any risks?

#### [<mark>INSERT</mark>]

g. <u>Are there any other key risks to the delivery of this site not covered above and how will they be mitigated?</u>

Signed on behalf of [insert name of developer/site promoter]

## Appendix 4 Lead-in Time Analysis (Babergh & Mid-Suffolk)

#### Local Lead-in Time Analysis

The following provides a review of past lead-in times considering 50 sites (major development) in both Babergh and Mid-Suffolk districts. For this exercise, the developments have been split by the size of the sites (above and below 100 units) and have measured two lead-in times:

- **Lead-in Time (1):** From the date of validation of the first permission (i.e. outline or full planning permission) to the first completion; and
- **Lead-in Time (2):** From the date of approval of the detailed permission (i.e. reserved matters or full planning permission) to the first completion.

#### Local analysis: sites 100-499 units

	Average	Median	Average	Median	
10-99 dwellings	3.3 years	2.7 years	2.0 years	1.6 years	13
100-499 dwellings	3.4 years 3.3 years		1.7 years 1.6 years		37

Source: Babergh District Council / Mid-Suffolk District Council / Lichfields Analysis

#### National Lead-in Time Evidence: Start to Finish (2<sup>nd</sup> Edition)

6.11

'Start to Finish' (2<sup>nd</sup> Edition) is a report published by Lichfields in February 2020. It reviews the factors affecting the build-out rates of large sites including the lead-in times. The below graph (extracted from Start to Finish) details the average lead-in times for both the period from validation of the first application to first completion and from approval of the first detailed permission to first completion.

#### Start to Finish (2nd Edition) – Average timeframes from validation of first application to completion of the first dwelling

Source: Lichfields 2020

- 6.12 Comparing the local data with the national data in 'Start to Finish' it would appear sites in the districts have lead-in times that are similar. In respect of sites under 100 dwellings (or in the case of Start to Finish 50-99) the average lead-in times are identical. For sites 100 to 499 in size, the local evidence suggests a lower lead-in time of 3.3 years compared to 4.0 years in 'Start to Finish'. However, this is likely explained by the fact that the largest site reviewed locally is 300 dwellings.
- In lieu of local data, 'Start to Finish' is considered to provide robust lead-in time assumptions for larger sites. This is considered robust on account of how well 'Start to Finish' aligns with data for smaller sites and given the research reviews 97 large sites (above 500 units) in size; while locally there is not sufficient data on such large sites to come to a robust conclusion.

## Appendix 5 Build-Out Rate Analysis (Babergh & Mid-Suffolk)

#### Local Build Rate Analysis

The following detail a review of the past delivery rates from 33 sites (major development) in both Babergh and Mid-Suffolk districts. For this exercise, we have split up the developments by the size of the sites in to three categories and only reviewed sites that are at least 50% complete. This is to average out earlier years following commencement where delivery is likely to be less. The median build rates are also shown which accounts for extremes in the data set.

#### National Lead-in Time Evidence: Start to Finish (2nd Edition)

6.14

'Start to Finish' (2<sup>nd</sup> Edition) is a report published by Lichfields in February 2020. It reviews the factors affecting the build-out rates of large sites including the lead-in times. Figure 6.3 below details the average build rates for varying site sizes. Figure 6.4 also shows the variation the across the Start to Finish data; including the minimum, mean, median and maximum build rates by site size.

Figure 6.3 Start to Finish (2nd Edition) - Build our rate by size of site (dpa)

Source: Lichfields analysis

Source: Lichfields 2020

Figure 6.4 Start to Finish (2nd Edition) - National Build Rate Analysis: Data variation including minimum, mean, median, and maximum build-out rates by size of site (dpa)

Source: Lichfields 2020

6.15

Assessing the local data alongside the national data in 'Start to Finish' again it would appear sites in the districts deliver at comparable rates. In lieu of local data, 'Start to Finish' provides robust average build rates for larger sites. Also akin to 'Start to Finish' the Council's median rates are generally below that of the arithmetic mean.

# **Appendix 6 Proforma Returns**

## Ref. MSP1

## Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

## Site Address:

Land to the West of Ixworth Road, Thurston

#### **Developer/Site Promoter:**

Persimmon Homes

Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

- 1. <u>Site Planning Status:</u>
  - Outline Planning Permission reference: 4963/16
  - Reserved Matters approval reference: DC/18/03547

Development commenced on 11.11.19

2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
60	80	80	28	XX	XX

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
XX	XX							

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

Delayed for initial period over lockdown.

4. <u>In support of the above trajectory, please provide a brief justification for the assumed</u> <u>build rates with refence to factors such as the number of outlets, affordable housing,</u> <u>and market trends:</u>

The site is owned by Persimmon Homes and we are confident of delivering the units as outlined. Persimmon Homes is all about delivery of houses. As you are aware the s106 does not allow occupation until a footway and cycleway is provided to connect the site to the village. Residents object to the removal of trees (which was agreed by Mid Suffolk DC) which are required to allow for the required visibility splays and the construction of the cycleway. Discussions are underway to achieve an alternative arrangement which will allow a number of trees earmarked for removal to be retained. This is dependent on external landowners agreeing to the proposal. If a solution is not reached then the occupation of the dwellings will be delayed. Discussions are ongoing and Persimmon has been pro-active in finding a solution.

## Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY B SITES

Site	Address:
------	----------

Land South of Castleton Way, Eye

#### **Developer/Site Promoter:**

Persimmon Homes

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to determine the deliverability of the site in question. The questions below have been tailored to address the deliverability factors cited in Annex 2 of the revised National Planning Policy Framework (2019) and the National Planning Policy Guidance (ID: 68-007). In particular, for major development sites not benefitting from full permission, the Council can only include them within its five-year land supply if there is 'clear evidence' that housing completions will begin on site within five years.

The information sought below is necessary for the Councils to make an effective judgement as to whether the site in question is deliverable. Therefore, please provide as much detail as possible when responding to the questions. Absent this, the Councils may not be able to conclude the site in question is deliverable. Not all of the questions will be relevant for your site – for example if development has already commenced – but please try to complete as fully as you can.

#### 1. <u>Site Planning Status:</u>

- Allocation reference: Policy 4 of Eye Neighbourhood Development Plan
- Outline Planning Permission reference: 3563/15

# 2. What progress is being made towards the submission of application(s) (i.e. Outline & RM or Full applications) required to be granted before development may lawfully commence?

Pre-application meeting have taken place the most recent in June 2020. The layout is being amended following these discussions. A meeting with representatives of the LPA and Eye Town Council is due to take place in the w/c 6<sup>th</sup> July 2020 and an application will follow in August 2020.

3. <u>What progress is being made on site assessment work and the discharge of</u> <u>conditions required for an application submission and / or before development may</u> <u>lawfully commence?</u> Details of Surface Water Drainage have already been submitted to the Council and discussions are ongoing.

(please also provide details of relevant pre-commencement conditions that have been discharged – including references – and which pre-commencement conditions still need to be discharged)

4. <u>Please provide details of any house builder(s) secured to develop the site:</u>

Persimmon Homes.

a. What is their track record of building and selling in the local market?

Excellent.

b. <u>If no house builder is yet in place, what progress has been made and when</u> will one be contracted to build out the site?

n/a

5. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
05	60	60	60	27	XX

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
XX	XX							

(if the site is expected to deliver both within and beyond the five-year period – please detail the expected delivery beyond 1<sup>st</sup> April 2025 if known as well. This will support the Council's local plan trajectory which is also being prepared)

In support of the above trajectory, please also provide the following information:

a. <u>When will construction on site likely begin (i.e. opening up works, not when</u> the first house is delivered)?

January 2021

b. When is the first house anticipated to be completed?

June 2021

c. If relevant, is there a phasing plan for the site?

The development will be built out in one phase

d. How many outlets are likely to be delivering from the site and/or phase?

One

e. <u>What level of affordable housing is to be delivered on the site and when are these likely to be delivered? Has a Registered Provider been selected?</u>

20%. RP not yet assigned.

f. <u>Please summarise why there is a realistic prospect of achieving the rate of build out assumed for the site.</u>

There are no viability issues with the site and no major constraints that would stall development. Unless there is a significant change in the housing market, viability will not affect Persimmon's ability to deliver housing within 5 years. The Covid-19 pandemic has not had a detrimental impact on sales thus far.

g. If the site is already under-construction and you estimate a higher build rate than has been achieved on the site in the most recent years, please explain why this increase is realistic.

n/a

- 6. <u>What are the key risks to achieving the trajectory identified above and how are you</u> <u>mitigating against these risks? In particular:</u>
  - a. <u>Has a S106 been agreed with the Council for this site? If not when do you</u> <u>anticipate one to be agreed?</u>

A s106 has been secured as part of the outline application.

b. <u>Is the development viable as approved / allocated, or do you anticipate</u> <u>amendments will need to be made?</u>

A s106 has been secured as part of the outline application.

c. <u>Is the development viable as approved / allocated, or do you anticipate</u> <u>amendments will need to be made?</u>

There are no viability issues on this site. The s106 requirements have been established at the outline planning stage and 20% affordable housing is provided in line with the s106. Unless there is a significant change in the housing market, viability will not affect Persimmon's ability to deliver housing within 5 years.

d. Is the site available for development now?

Yes - Pending completion of the archaeology works and final contractual issues with the landowner.

e. <u>Are there site ownership, access or other legal constraints that could affect</u> <u>the commencement of development? (i.e. ransom strips, land assembly</u> <u>issues etc).</u>

No.

f. <u>What (if any) infrastructure provision is necessary to support / enable the</u> <u>development to commence and is there funding in place to deliver it?</u>

There are no significant infrastructure requirements associated with this site.

g. <u>What could be the impact of the COVID-19 pandemic be on the delivery of</u> <u>this site or achievement of the build out rate? How are you mitigating against</u> <u>any risks?</u>

Unless there is a significant change in the housing market as a result of the Covid-19 pandemic which results in a significant downturn in the economy this will not affect Persimmon's ability to deliver housing within 5 years. It is difficult to assess what impact may arise at this stage.

h. <u>Are there any other key risks to the delivery of this site not covered above and how will they be mitigated?</u>

No.

## Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

## Site Address:

Land on the West side of Barton Road, Thurston

## **Developer/Site Promoter:**

Vistry Group (Bovis Homes)

Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

#### 1. <u>Site Planning Status:</u>

- Full Planning Permission reference: DC/17/02232
- Development commenced on: Not yet commenced
- Please provide the delivery intentions and anticipated start and build-out rates (from <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
<mark>0</mark>	<mark>25</mark>	<mark>30</mark>	<mark>30</mark>	<mark>30</mark>	<mark>115</mark>

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
<mark>14</mark>	XX	<mark>XX</mark>	<mark>XX</mark>	XX	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

Reduced expected delivery rate by around one third.

4. In support of the above trajectory, please provide a brief justification for the assumed build rates with refere to factors such as the number of outlets, affordable housing, and market trends:

Build rate reduced due to social distancing (smaller workforce), and expected downturn in housing market.

- 1. <u>Site Planning Status :</u>
  - Outline Planning Permission reference: 0846/13
  - Reserved Matters reference: 3918/15
- Please provide the delivery intentions and anticipated start and build-out rates (from <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
20	31	12	00	00	63

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
00	00	00	00	00	00	00	00	00

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

Taylor Wimpeys experience of Covid-19 to date has seen sites close down for a considerable period and then reopen in a measured and conservative format, slowly increasing our staff levels until we are [as of early June] were back to full capacity, albeit a different way of working in many instances. After in initial stop on all sales, since investing in remote customer interaction, we have seen a slow but steady sales rates in line with a typical 30%+ reduction across our region. Elmswell is no different. Although we are now able to reopen our sales areas and make reservations via Microsoft Teams Meetings, we remain cautious that the above figures reflect a tough 2020/21 with a small recovery in 2021/22 and are optimistic of a recovery in 2022/2023.

4. <u>In support of the above trajectory, please provide a brief justification for the assumed</u> <u>build rates with refence to factors such as the number of outlets, affordable housing,</u> <u>and market trends:</u>

Taylor Wimpey have been on sale in Elmswell for several years and have always maintained a consistent sales rate, shared previously with BMSDC. We are confident that our projected slow down in 2020/21 and to a lesser extent 2021/22 is consistent with the markets reaction to Covid-19. We are fully remobilised and anticipate customers to be steadily returning to the market.

## Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

## Site Address:

Land to the West of Thorney Green Road, Stowupland

## **Developer/Site Promoter:**

Vistry Group (Linden Homes)

Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

#### 1. <u>Site Planning Status:</u>

- Outline Planning Permission reference: 5024/16 & 0195/16
- Reserved Matters reference: DC/19/05317 & DC/1905316
- Please provide the delivery intentions and anticipated start and build-out rates (from <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
<mark>0</mark>	<mark>30</mark>	<mark>30</mark>	<mark>30</mark>	<mark>30</mark>	<mark>120</mark>

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
<mark>23</mark>	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	XX	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

Reduced expected delivery rate by around one third.

4. In support of the above trajectory, please provide a brief justification for the assumed build rates with refere to factors such as the number of outlets, affordable housing, and market trends:

Build rate reduced due to social distancing (smaller workforce), and expected downturn in housing market.

## Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY B SITES

Site	Address:
------	----------

Land North of Norton Road, Thurston

## **Developer/Site Promoter:**

Vistry Group (Linden Homes)

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to determine the deliverability of the site in question. The questions below have been tailored to address the deliverability factors cited in Annex 2 of the revised National Planning Policy Framework (2019) and the National Planning Policy Guidance (ID: 68-007). In particular, for major development sites not benefitting from full permission, the Council can only include them within its five-year land supply if there is 'clear evidence' that housing completions will begin on site within five years.

The information sought below is necessary for the Councils to make an effective judgement as to whether the site in question is deliverable. Therefore, please provide as much detail as possible when responding to the questions. Absent this, the Councils may not be able to conclude the site in question is deliverable. Not all of the questions will be relevant for your site – for example if development has already commenced – but please try to complete as fully as you can.

#### Site Planning Status:

- Outline Planning Permission reference: 5070/16
- Reserved Matters reference Phase 1: DC/19/01602
- Development commenced on: October 2019

# 2. What progress is being made towards the submission of application(s) (i.e. Outline & RM or Full applications) required to be granted before development may lawfully commence?

Phase 1 RM approved and commenced on site. Phase 2 RM under consideration. Phase 2 hybrid application (uplift in unit numbers) under consideration.

(please include any pre-application references, anticipated dates of submission for future applications and justification for why the date anticipated is realistic) 3. <u>What progress is being made on site assessment work and the discharge of</u> <u>conditions required for an application submission and / or before development may</u> <u>lawfully commence?</u>

*Pre-commencement conditions discharged or part discharged for phase 1: Outline: 5, 6, 12, 16, 18, 19, 21, 22, 24, RM: 2, 5, 9, 10* 

Pre-commencement conditions to be discharged: Outline: 26, 27, 28

(please also provide details of relevant pre-commencement conditions that have been discharged – including references – and which pre-commencement conditions still need to be discharged)

4. <u>Please provide details of any house builder(s) secured to develop the site:</u>

Vistry Eastern (Linden Homes)

a. What is their track record of building and selling in the local market?

First development in Mid-Suffolk, however successfully working in surrounding local authority areas and nationwide

b. If no house builder is yet in place, what progress has been made and when will one be contracted to build out the site?

[<mark>INSERT</mark>]

5. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
<mark>12</mark>	<mark>30</mark>	<mark>30</mark>	<mark>30</mark>	<mark>30</mark>	<mark>132</mark>

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
<mark>30</mark>	<mark>30</mark>	<mark>8</mark>	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>	<mark>XX</mark>

(if the site is expected to deliver both within and beyond the five-year period – please detail the expected delivery beyond 1<sup>st</sup> April 2025 if known as well. This will support the Council's local plan trajectory which is also being prepared)

In support of the above trajectory, please also provide the following information:

a. <u>When will construction on site likely begin (i.e. opening up works, not when</u> the first house is delivered)? Commenced October 2019

b. When is the first house anticipated to be completed?

November 2020

c. If relevant, is there a phasing plan for the site?

Phase 1 – 87 units, commenced October 2019 Phase 2 – 113 units inc 9 self build, commencement tbc

(If there is please provide basic details including when each phase is likely to start/complete and how many homes in each phase)

d. How many outlets are likely to be delivering from the site and/or phase?

1

e. <u>What level of affordable housing is to be delivered on the site and when are these likely to be delivered? Has a Registered Provider been selected?</u>

35%. Delivery in line with s106 i.e 50% of affordable housing to be delivered prior to occupation of 50% of open market dwellings. Remaining 50% of AH to be delivered prior to occupation of 80% of open market dwellings. We are in contract with an RSL.

f. <u>Please summarise why there is a realistic prospect of achieving the rate of build out assumed for the site.</u>

Work has commenced on site and delivery of dwellings is integral to our business plan.

g. If the site is already under-construction and you estimate a higher build rate than has been achieved on the site in the most recent years, please explain why this increase is realistic.

n/a

- 6. <u>What are the key risks to achieving the trajectory identified above and how are you</u> <u>mitigating against these risks? In particular:</u>
  - <u>Has a S106 been agreed with the Council for this site? If not when do you anticipate one to be agreed?</u>
     Yes
  - b. <u>Is the development viable as approved / allocated, or do you anticipate</u> <u>amendments will need to be made?</u>

Viable as approved.

c. Is the site available for development now?

Yes

d. <u>Are there site ownership, access or other legal constraints that could affect</u> <u>the commencement of development? (i.e. ransom strips, land assembly</u> <u>issues etc).</u>

No

e. <u>What (if any) infrastructure provision is necessary to support / enable the</u> <u>development to commence and is there funding in place to deliver it?</u>

n/a

(if the development is reliant on or has secured any grant funding for relevant supporting infrastructure please provide details of this here)

f. What could be the impact of the COVID-19 pandemic be on the delivery of this site or achievement of the build out rate? How are you mitigating against any risks?

Forecast above allows for Covid-19 impact, expected delivery rate reduced by one third from original forecast.

g. <u>Are there any other key risks to the delivery of this site not covered above and how will they be mitigated?</u>

n/a

# Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

# Site Address:

Land East of King George's Field, Haughley

## **Developer/Site Promoter:**

**Bloor Homes** 

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

- 1. <u>Site Planning Status:</u>
  - Outline Planning Permission reference: DC/17/04113
  - Reserved Matters reference: DC/19/05958
- 2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
15	50	33	-	-	98

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
-	-	-	-	-	-	-	-	-

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

At the moment we are not anticipating there to be an impact on build in Haughley but the progress of build will be led by market conditions which are closely monitored. The build rate

will be adjusted accordingly. There is a great deal of uncertainty as to the medium and longer term impact of COVID-19.

4. <u>In support of the above trajectory, please provide a brief justification for the assumed build rates with referce to factors such as the number of outlets, affordable housing, and market trends:</u>

The build rate is based on build rates (Pre COVID-19) achieved on other Bloor sites (completed and current) within the area and assessment of the market. As set out above the build rate in Haughley will be continuously reviewed and adjusted to reflect market conditions.

# Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

# Site Address:

Land on the West side of Stowmarket Road, Gt Blakenham

# **Developer/Site Promoter:**

Persimmon Homes

Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

- 1. <u>Site Planning Status:</u>
  - Outline Planning Permission reference: 2022/16
  - Reserved Matters reference: DC/18/01487
  - Development commenced on: 18.02.19
- 2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
80	30	XX	XX	XX	XX

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
XX	XX							

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

Unless there is a significant change in the housing market as a result of the Covid-19 pandemic which results in a significant downturn in the economy this will not affect Persimmon's ability to deliver housing within 5 years. It is difficult to assess what impact may arise at this stage.

4. In support of the above trajectory, please provide a brief justification for the assumed build rates with referce to factors such as the number of outlets, affordable housing, and market trends:

The site is owned by Persimmon Homes and we are confident of delivering the units as outlined. Persimmon Homes is all about delivery of houses.

# Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY B SITES

## Site Address:

Land North of Chilton Leys, Stowmarket

## **Developer/Site Promoter:**

Taylor Wimpey East Anglia

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to determine the deliverability of the site in question. The questions below have been tailored to address the deliverability factors cited in Annex 2 of the revised National Planning Policy Framework (2019) and the National Planning Policy Guidance (ID: 68-007). In particular, for major development sites not benefitting from full permission, the Council can only include them within its five-year land supply if there is 'clear evidence' that housing completions will begin on site within five years.

The information sought below is necessary for the Councils to make an effective judgement as to whether the site in question is deliverable. Therefore, please provide as much detail as possible when responding to the questions. Absent this, the Councils may not be able to conclude the site in question is deliverable. Not all of the questions will be relevant for your site – for example if development has already commenced – but please try to complete as fully as you can.

#### 1. <u>Site Planning Status:</u>

- Outline Planning Permission references: ....
- Reserved Matters reference: [INSERT]

# 2. What progress is being made towards the submission of application(s) (i.e. Outline & RM or Full applications) required to be granted before development may lawfully commence?

Taylor Wimpey is currently building out its first 175 dwellings of its final phase (Ph2a) of the aforementioned development. We are in discussions with BMSDC for a subsequent 'balance of site' RMA for the remaining 425 dwellings, which we hope to submit in August 2020.

(please include any pre-application references, anticipated dates of submission for future applications and justification for why the date anticipated is realistic)

3. <u>What progress is being made on site assessment work and the discharge of</u> <u>conditions required for an application submission and / or before development may</u> <u>lawfully commence?</u>

N/A

(please also provide details of relevant pre-commencement conditions that have been discharged – including references – and which pre-commencement conditions still need to be discharged)

4. <u>Please provide details of any house builder(s) secured to develop the site:</u>

Taylor Wimpey

a. What is their track record of building and selling in the local market?

Taylor Wimpey have consistently delivered a vast volume of new build homes in BMSDC and are regarded as one of the 'heavy lifters' contributing to BMSDC's housing delivery

b. <u>If no house builder is yet in place, what progress has been made and when</u> will one be contracted to build out the site?

N/A

5. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
38	44	47	66	66	261

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+

(if the site is expected to deliver both within and beyond the five-year period – please detail the expected delivery beyond 1<sup>st</sup> April 2025 if known as well. This will support the Council's local plan trajectory which is also being prepared)

In support of the above trajectory, please also provide the following information:

a. <u>When will construction on site likely begin (i.e. opening up works, not when</u> <u>the first house is delivered)?</u>

Phase 2a is underway Phase 2b – May 2022

b. When is the first house anticipated to be completed?

Phase 2b – Feb 2023

c. If relevant, is there a phasing plan for the site?

N/A

(If there is please provide basic details including when each phase is likely to start/complete and how many homes in each phase)

d. How many outlets are likely to be delivering from the site and/or phase?

One

e. <u>What level of affordable housing is to be delivered on the site and when are</u> these likely to be delivered? Has a Registered Provider been selected?

20% integrated through the housing delivery with the Private Homes.

f. <u>Please summarise why there is a realistic prospect of achieving the rate of build out assumed for the site.</u>

Taylor Wimpey have been on site for many years and have always maintained a strong sales rate. We have taken caution on our projections in 2020/21 and 2021/22 but see no reason why these figures cannot be achieved.

g. If the site is already under-construction and you estimate a higher build rate than has been achieved on the site in the most recent years, please explain why this increase is realistic.

N/A

- 6. <u>What are the key risks to achieving the trajectory identified above and how are you</u> <u>mitigating against these risks? In particular:</u>
  - a. <u>Has a S106 been agreed with the Council for this site? If not when do you</u> <u>anticipate one to be agreed?</u>

Yes

b. <u>Is the development viable as approved / allocated, or do you anticipate</u> <u>amendments will need to be made?</u>

Yes

c. <u>Is the site available for development now?</u>

Yes

d. <u>Are there site ownership, access or other legal constraints that could affect</u> <u>the commencement of development? (i.e. ransom strips, land assembly</u> <u>issues etc).</u>

No

e. <u>What (if any) infrastructure provision is necessary to support / enable the</u> <u>development to commence and is there funding in place to deliver it?</u>

All infrastructure has RM Approval and had been constructed on site.

(if the development is reliant on or has secured any grant funding for relevant supporting infrastructure please provide details of this here)

f. <u>What could be the impact of the COVID-19 pandemic be on the delivery of</u> <u>this site or achievement of the build out rate? How are you mitigating against</u> <u>any risks?</u>

Our projected figures are done so with allowance for risk.

g. <u>Are there any other key risks to the delivery of this site not covered above and how will they be mitigated?</u>

Continuity of housing delivery is subject to the next RMA being approved in a timely manner by BMSDC in order to maintain build continuity and reach the larger volumes in 2022 and beyond.

# Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

## Site Address:

Land to the South of Union Road, Onehouse, Stowmarket

## **Developer/Site Promoter:**

Hopkins Homes

#### Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

- 1. <u>Site Planning Status:</u>
  - Full Planning Permission reference: 4455/16
  - Development commenced on October 2019
- Please provide the delivery intentions and anticipated start and build-out rates (from 1<sup>st</sup> April to 31<sup>st</sup> March of each year):

20/21	21/22	22/23	23/24	24/25	5-year period delivery
10	58	46	36	36	186

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
36	36	36	6					

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

Hopkins Homes typically build around 36 market dwellings per annum. We anticipate that this may reduce to around 30 dwellings over the next 24 months (due to COVID restrictions). As such, 12 dwellings would come out of the five-year supply.

4. <u>In support of the above trajectory, please provide a brief justification for the assumed</u> <u>build rates with refere to factors such as the number of outlets, affordable housing,</u> <u>and market trends:</u>

As above.

# Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

## Site Address:

Land South of Norton Road, Thurston

## **Developer/Site Promoter:**

Hopkins Homes

Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

- 1. <u>Site Planning Status:</u>
  - Outline Planning Permission reference: 5010/16
  - Reserved Matters reference: DC/18/01376
  - Development commenced on: Sept 2019
- Please provide the delivery intentions and anticipated start and build-out rates (from <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year)</u>:

20/21	21/22	22/23	23/24	24/25	5-year period delivery
55	45	57	18		175

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

None, we still anticipate all units will be completed within 5 years.

4. <u>In support of the above trajectory, please provide a brief justification for the assumed</u> <u>build rates with refere to factors such as the number of outlets, affordable housing,</u> <u>and market trends:</u>

Hopkins Homes typically seek to build 36 market dwellings per annum. We anticipate that this may reduce to 30 dwellings over the next 24 months (due to social distancing requirements, staff/contractor availability and issues sourcing materials). Hence the first two years have a slightly reduced build rate.

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

Hopkins Homes typically build 36 market dwellings per annum. We anticipate that this may reduce to 30 dwellings over the next 24 months (due to social distancing

requirements, staff/contractor availability and issues sourcing materials). As such, 12 dwellings would come out of the five-year supply.

4. <u>In support of the above trajectory, please provide a brief justification for the assumed build rates with referce to factors such as the number of outlets, affordable housing, and market trends:</u>

As above

# Babergh and Mid Suffolk District Councils: Site Deliverability Proforma / Site Questions (2020) – CATEGORY A SITES

# Site Address:

Land adj. to Wetherden Road, Elmswell

## **Developer/Site Promoter:**

Crest Nicholson

Purpose of this proforma:

This proforma has been prepared in order to gather relevant site-specific evidence to allow Babergh and Mid Suffolk District Councils to prepare the Councils' respective five-year housing land supply positions. In accordance with policy and guidance major sites benefitting from a detailed permission (i.e. reserved matters or full permission) are presumed deliverable. Unless otherwise stated we will presume your site is indeed deliverable.

However, in light of the COVID-19 pandemic, we are seeking the below information to confirm delivery rates and gauge the impact on the delivery of sites expected to deliver both within and beyond the five-year period.

#### 1. <u>Site Planning Status:</u>

- Outline Planning Permission reference: 4911/16
- Reserved Matters reference: DC/18/01679
- Development commenced on: 01/02/2019
- 2. <u>Please provide the delivery intentions and anticipated start and build-out rates (from</u> <u>1<sup>st</sup> April to 31<sup>st</sup> March of each year):</u>

20/21	21/22	22/23	23/24	24/25	5-year period delivery
<mark>93</mark>	<mark>63</mark>	<mark>36</mark>	<mark>22</mark>	<mark>XX</mark>	<mark>214</mark>

25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33+
XX	<mark>XX</mark>	<mark>XX</mark>	XX	XX	<mark>XX</mark>	XX	XX	XX

(please also provide the expected delivery beyond 1<sup>st</sup> April 2025 if known. This will support the Council's local plan trajectory which is being prepared alongside the 5YHLS report)

3. <u>What impact, if any, has the COVID-19 pandemic had on the number of dwellings to be completed within the next five years on this site?</u>

The COVID-19 pandemic is likely to slow the build out rate on site in the short term as measures are taken to ensure the safety of on-site workers. We still anticipate a build out rate of around 50 dwellings per annum.

#### 4. <u>In support of the above trajectory, please provide a brief justification for the assumed</u> <u>build rates with refence to factors such as the number of outlets, affordable housing,</u> <u>and market trends:</u>

Our Elmswell site is served by one sales outlet and we hope to see around 30 private completions a year in the short term. This is boosted by the delivery of affordable housing that will increase occupations in the near term.

Major - Outl	ine permissio	n														
	M /5007/16/O	OUT	Stowmarke	Land North Of Chilton Leys Chilton Leys Stowmarke										Part of a wider development that has already commenced (175 units - Phase 2a - ref. DC/18/03111). All infrastructure already approved and built out. RMs expected to be submitted August 2020. Assuming a 3-4 month determination (as per previous RM on site), plus 1.7yr lead-in 2022/23 appears reasonable for first completions. Delivery rates appear optimistic against local averages. Amended for trajectory. Assumed from 2024/25 onwards		
		permission	t	t	05/07/2018	425	425	C	0	-	22	33	5	· · ·	Deliverable	Y - Ref. MSP9
113030				Land South	03,07,2010	425	425							Site is allocated in a Neighbourhood Development Plan. Developer anticipates submission of RM in August 2020. Application to discharge SUDs condition has been submitted in February 2020. Meeting with LPA and Town Council to take place in July. Lead-in times and build rates also appear overly optimistic.		
	M /3563/15/0	OUT		of Eye Airfield Castleton										Conservative assumption applied that the site has RM permission by the end of 2020/21. Applied median lead-in time from 01/04/2021 and median build rates.		
			Eye	Way	27/03/2018	280	280	C	0 0	11	. 33	33	7		Deliverable	Y - Ref. MSP2
	M /1636/16/0			Land South Of Old Stowmarke t Road										RM application was submitted in Nov 2019 (ref. DC/19/05196). This has since been approved post base-date on 16/04/20. Various applications approved to discharge conditions.		
			Woolpit	Woolpit	06/07/2018	120	120	C	11	33	33	33	11	0 Median lead-in times and build rates applied.	Deliverable	~
	M /5070/16/O			Land on the North side of Norton	20 /02 /02									Phase 2 RM for 113 units including 9 self build is under consideration. Phase 2 hybrid application (uplift in unit numbers) under consideration. As works have already commenced on phase 1, and the first house is anticipated to be delivered in November 2020, it is reasonable to assume that delivery of phase 2 could begin in year 4 of the 5YHLS period. This allows for sufficient time for determination of the RM and a sufficient lead in time based on local averages for delivery of the first dwelling in		
MS655	UT	permission	Thurston	Road	29/03/2018	113	113	C	0 0	C	) 15	30	4	5 Phase 2.	Deliverable	Y - Ref. MSP6
