

Save Walsham by J. Delany

Walsham is a beautiful place

Beautiful Heritage and beautiful Grace

The Community are friendly and caring

The modern issues are very despairing

The building of developments fills one with fear

To spoil the village we love so dear

The rural countryside fills us with pride

If development starts nature's wildlife can't hide

Out beautiful church stands out and above

The quaint little cottages that we love

Many years ago we had shops galore

The wonderful luxury we see no more

The baker came round with his cart what a treat

With hot bread and rolls that you could not beat

We had eight Public Houses with welcome doors

And a policeman on a bike to keep the law
