

Walsham Community Traffic Group Report- June 3rd

Update

- Cllr Bain received background information on our Speed Reduction report and we are awaiting an update from him and/ or Sophie Farrington now that new councillors are in place. Unfortunately our planned site meeting has been postponed but will be rearranged after June 12th
- There has been correspondence between the Sports Club and SCC Highways re line markings on Summer Road. This needs to be followed up again.
- The application for 3 SID poles has received a helpful response with all 3 sites agreed by SCC as suitable after further negotiation. The Finningham Road site is still being discussed with the nearest resident.
- The Speed Watch article was published in this month's Observer and we have some interest from outside the Traffic Group.

Proposals1

That we apply for funding for 2 SIDs as agreed previously now we have permission for 3 additional poles.

Proposal 2

We go ahead with Badwell Road and Summer Road SID locations and finalise Finningham Road by next meeting at the latest.
